

WESDOME AND WINDARRA ANNOUNCE DEFINITIVE AGREEMENT REGARDING ACQUISITION

FOR IMMEDIATE RELEASE

Toronto, Ontario – July 30, 2013 – Wesdome Gold Mines Ltd. (“**Wesdome**”) (TSX:WDO) and Windarra Minerals Ltd. (“**Windarra**”) (TSX-V:WRA) are pleased to announce that they have executed a definitive agreement (the “**Agreement**”) pursuant to the previously announced letter of intent for the proposed acquisition by Wesdome of all of the issued and outstanding common shares of Windarra (the “**Windarra Shares**”) on the basis of one common share of Wesdome for each ten Windarra Shares held (the “**Transaction**”). The Agreement was negotiated at arm’s length and is effective as of July 29, 2013.

Donovan Pollitt, President of Wesdome and John Pallot, President of Windarra, stated “People familiar with the combined assets and the long history of both companies are delighted that they have logically come together. It is clearly a win-win deal.

The shareholders will now own 100% of over 24 kilometres of the Mishibishu Deformation Zone, over 18 kilometres of the Eagle River Deformation Zone and the Eagle River Mill Complex. Recent success in building the new Mishi Mine and its early performance served as a catalyst to see the bigger picture. We now recognize potential for a bigger operation here with outstanding exploration and expansion potential.

Wesdome’s operating experience in the area involves building two underground mines and one open pit mine since it acquired the Eagle River property in March, 1994. From the first gold poured on October 17, 1995, to June 30, 2013, it has produced 1.1 million ounces of gold.

Windarra’s presence in the area dates to 1987. It was a partner in the Magnacon Mine Development, explored actively in the camp and importantly hand-picked and consolidated ownership in the best potential lands over a long period of time. This arrangement is consistent with Windarra’s long-term strategy and vision.”

The Transaction is expected to be completed by way of a share exchange involving Wesdome, Windarra and a wholly-owned subsidiary of Wesdome. The Transaction will also be subject to: (i) requisite approval by the shareholders of Windarra and the appropriate regulatory bodies; (ii) all of the outstanding options and warrants to acquire Windarra Shares having been exercised or cancelled; and (iii) other standard closing conditions.

Based on the currently issued and outstanding Windarra Shares as of the date of this announcement, the number of Wesdome common shares to be issued as part of the consideration will be approximately four million shares, representing approximately 3.9% of Wesdome’s currently issued and outstanding shares on a non-diluted basis.

The Transaction values Windarra's equity at approximately C\$1.55 million on a non-diluted basis. Following completion of the Transaction, Windarra shareholders will own approximately 3.8% of Wesdome's outstanding common shares on a non-diluted basis, based on their current shareholdings in Windarra.

The Board of Directors of Windarra is unanimously recommending that Windarra shareholders vote in favour of the Transaction.

Following completion of the Transaction, it is expected that Windarra will be a private company wholly-owned by Wesdome.

Directors and officers of Windarra, as well as certain of its shareholders, have entered into voting support agreements with Windarra pursuant to which each such party has agreed to vote in favour of the Transaction. Such locked-up Windarra Shares represent approximately 32% of the issued and outstanding Windarra Shares on a non-diluted basis.

The terms and conditions of the Agreement will be disclosed in more detail in Windarra's management information circular, which is expected to be filed and mailed to Windarra shareholders in early September, 2013.

Details regarding these and other terms of the Transaction are set out in the Agreement, which will be available on SEDAR at www.sedar.com

About Wesdome

Wesdome is in its 26th year of continuous mining operations in Canada. It currently has two producing gold mines in Wawa, Ontario and owns the Kiena Complex in Val d'Or, Québec.
